Environmental Policy

30/06/2022

Policy Statement

Sime Building and Construction has implemented an Environmental Management System (EMS) which forms part of the company's Integrated Management System. It focuses on continual improvement in environmental performance at head office and all project sites. We maintain compliance with applicable environmental requirements and therefore fully committed to the prevention of pollution. We will involve all our managers, employees and work with our clients and suppliers to ensure environmentally sound and safe work practices, which continually meet regulatory requirements.

Policy Procedure / Clarification

Sime Building and Construction is committed to the following objectives:

- ◆ Conserving our natural and cultural environment and treating natural resources with care.
- ◆ Working towards ecologically sustainable development regarding raw materials used, energy sources and usage and the environmental impact of our activities.
- ◆ Adopting a reduce, re-use and recycle approach.
- ◆ Adopting best available and affordable technologies.
- ◆ Reducing any identified environmental pollution as a result of its activities; and
- ◆ Continually improving our Integrated Management System, which incorporates Quality, Work Health and Safety and Environmental Management Systems.

Sime Building and Construction is continually committed to:

- ◆ Complying with applicable legal and other environmental requirements required to appropriately manage our environmental aspects.
- ◆ Establishing and reviewing its environmental objectives. Its broad objectives have been stated above. Detailed and quantifiable objectives and targets are stated within company procedures; and
- ◆ Ensuring that company employees and contractors are informed about this Policy and are aware of their responsibilities.

David Sime
Director
